

594CW

SST 4 mil (100 micron) Acrylic Transfer Tape

Unsupported clear acrylic, pressure sensitive transfer adhesive utilizing Venture's special. Cold weather acrylic adhesive system on a specially treated, silicone coated easy-release liner.

Superior quick stick at normal temperatures, superior performance below freezing down to 10°F (-12°C)

Primary Use: Self-sealing tab for joining the laps of metal building insulation. Cuts installation time, eliminates stapling, pinning, gives a complete vapor seal. Excellent under adverse conditions.
